Christian Studies

Christian Studies underpins the ethos of our school and, at times, is carefully integrated with other subjects into Project Based Learning experiences. Christian Studies introduces children to the world of religion and spirituality, which are integral components of all cultures. In the early years we acknowledge that all people are on a lifelong journey of faith and we must value open dialogue, sensitivity to the beliefs of others, interdependence and collaboration with other students, individual reflection, respect for each person's uniqueness and recognition that growth and transformation take time. Christian Studies in the early years provides an avenue for the Holy Spirit to grow faith. This occurs in safe and supportive class environments with the freedom for children to have their own views in a diverse community of differing backgrounds and experiences. The pedagogical approach in Christian Studies makes learning personally relevant, creates deep thinking and brings students to a place where they act on the challenges, values and beliefs communicated in the theology of the framework.

Content Specific Scope and Sequence of Learning & Teaching

The Christian Studies classroom is a learning environment in which students can explore a range of religious and non-religious perspectives they encounter in an increasingly pluralistic Australian society. Knowledge of other people's belief systems and analysis of the complex interplay of factors that contributes to an individual worldview, enrich students' ability to make sense of the world, determine the source of their own beliefs and values, and understand the role religion plays in society. A collaborative learning environment acknowledges and respects that students have diverse backgrounds, needs and interests. Students are mentored to:

- become articulate, empathic and discerning members of their communities
- develop religious literacy
- think, challenge and question, as well as listen to and identify the issues underlying discussion
- enter into open, respectful dialogue with people whose religious, philosophical, ethical views are different
- to present an informed, well-defended personal position

Bethania Lutheran School

Year 3

	Learning Statements	Units of Work & Teaching Focus
Unit 1	Students investigate and explain significant features of the Bible and its importance for Christians (CC2.1)	The Bible as Our Guide What is the purpose of the Bible? How does the Bible tell us how to live our lives? How does the Bible communicate God's plan for us?
Unit 2	Students investigate and represent people's relationships with God and with each other (CL 2.1)	Relationships With God and Others Students will investigate God's love and care for his created people and learn that this stems from his desire to be in relationship with them. Students will also explore how God uses people and structures to achieve his purposes in the world.
Unit 3	Students investigate spirituality by describing how Christians experience the presence of God in the world (CW 2.2) Students explore and describe what it means to live and care for the world (CL 2.3)	Spirituality and Our Responsibility in the World What does it mean to be and live as a Christian? How can we take care of God's creation? How is spirituality expressed by Christians and other religions?
Unit 4	Students analyse rescue stories from the Bible (CB 2.3)	God's Plan to Rescue Us How is sin evident in the world? How does God demonstrate his love by rescuing, forgiving, restoring and saving us through Jesus?

Please note: These units are listed in a suggested sequence but can be taught in any order across the year. The units of work and teaching foci are also suggestions only but care should be taken if selecting another to ensure that the unit of another year level is not used. If you choose to plan a different unit of work, please do so in consultation with the Deputy Principal. For examples of units previously planned see the 'Curriculum' folder under 'Units of Work' on the school network.
